# ***Trailer Loading Workbook***

*Kandoo Equine*

*[www.kandooclub.com](http://www.kandooclub.com)*

# How to Get Massive Value

- ✿ *Print this workbook out and use it during the Trailer Loading Masterclass training to write notes on (don't print the first two pages if you want to save some ink!)*
- ✿ *Think of at least ONE question that you want answered during the training and remember you can email Kate at the end if it hasn't been addressed earlier.*
- ✿ *At the end of the Masterclass decide to take action on at least one thing that you learned during the training the very next time you are loading your horse - small changes lead to huge differences!*

# Your 3 Biggest Trailer Loading Fears

# Things you'll discover in this training:

1. You have a lot more \_\_\_\_\_ using a \_\_\_\_\_ than a \_\_\_\_\_.
2. Trailer loading can be made 100% easier by focusing on one \_\_\_\_\_.
3. Trailer loading is simply go \_\_\_\_\_ and \_\_\_\_\_.
4. Controlling the \_\_\_\_\_ level is the key to training.
5. The best form of reinforcement to use when teaching trailer loading is \_\_\_\_\_ reinforcement in the form of \_\_\_\_\_.
6. Common motivators used to teach trailer loading that often make it considerably more difficult include \_\_\_\_\_ and \_\_\_\_\_.
7. There are a number of exercises you could do, away from the trailer, to help your horse with the lesson. Name a few:
  - 1) \_\_\_\_\_
  - 2) \_\_\_\_\_
  - 3) \_\_\_\_\_

Circle all of the useful pieces of equipment you might  
need:

*and cross out anything that you know will be more of a  
hinderance than a help!*

Long lead rope

Halter

Rope halter with pressure knots

Dressage whip

Short crop

Lunge whip

Short lead rope

Long lunge line

Travel boots

Broom

Hay net

Bucket with grain

Bridle

Webbing halter
